

# KOTHI VENNELA REDDY

Java | Python | Data Structures & Algorithms| REST APIs  
+91-9014284134 | kothivennelareddy@gmail.com  
linkedin.com/in/vennela-reddy-k | github.com/vennelareddy-1zd  
Hyderabad, India

## CAREER OBJECTIVE

---

Motivated Computer Science undergraduate with strong skills in Java, Python, SQL, Data Structures & Algorithms, and REST API development. Passionate about building scalable software solutions and continuously enhancing problem-solving skills. Seeking a software engineering role where I can contribute to innovative projects while learning and growing as a developer.

## EDUCATION

---

**B.Tech in Computer Science (AI & ML) | 2023 – 2027**  
Vignan Institute of Technology and Science, Hyderabad | CGPA: **8.89/10**  
**Intermediate (MPC) | 2020 – 2022**  
Narayana Junior College, Hyderabad | **97.5%**  
**Secondary School Certificate (SSC) | 2019 – 2020**  
Sankalp High School, Nalgonda | **100%**

## PROJECT EXPERIENCE

---

### Task Management REST API

- Built a REST API with Flask supporting 5+ CRUD endpoints for efficient data management.
- Integrated SQL database, authentication, and input validation for secure data handling.
- Tested endpoints using Postman and improved reliability through error handling and debugging.

### Financial Complaint Classification System

- Developed NLP-based classification system in Python on 10,000+ records, achieving 85% accuracy.
- Applied text preprocessing and TF-IDF for feature extraction.
- Built a user interface for real-time complaint prediction.

### Chess Bot using Alpha-Beta Pruning

- Developed an AI Chess Bot using Minimax with Alpha-Beta Pruning.
- Optimized move selection by reducing unnecessary search space.
- Built an interactive chess interface using Pygame.

### Pneumonia Detection using Deep Learning

- Designed a deep learning model with TensorFlow and Keras for medical image classification.
- Applied data augmentation techniques to expand dataset size by 30%, increasing robustness.
- Validated results on a dataset of 5,000+ X-ray images, ensuring reliability and scalability.

## SKILLS

---

**Languages:** Python, Java, C, SQL

**Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems

**Backend:** REST APIs, Flask, CRUD

**Tools:** Git, GitHub, VS Code, Postman, Jupyter Notebook

**Libraries:** TensorFlow, Keras

**Cloud:** AWS (Basics)

## CERTIFICATES

---

NPTEL – Programming in Java | NPTEL – Machine learning and Deep learning  
NPTEL – Cloud Computing | Python for Data Science | Frontend with HTML5 & CSS3

## ACHIEVEMENTS

---

- Developed multiple software and AI-based projects using Java, Python, SQL, and REST APIs.
- Participated in hackathons and coding competitions, demonstrating strong problem-solving and teamwork skills.
