

KOTHI VENNELA REDDY

AI / ML ENGINEER INTERN | Python | Machine Learning | Deep Learning | NLP

+91-9014284134 | kothivennelareddy@gmail.com | Hyderabad, India | LinkedIn: linkedin.com/in/vennela-reddy-k | GitHub: github.com/vennelareddy-1zd

CAREER OBJECTIVE

Computer Science undergraduate specializing in AI & ML with hands-on experience in deep learning, NLP, machine learning, and Python-based AI applications. Experienced in developing and evaluating AI models using TensorFlow and Keras, with a strong foundation in data structures, algorithms, SQL, and software development. Seeking an AI Engineer internship to build practical AI solutions and contribute to real-world projects.

EDUCATION

B.Tech in Computer Science (AI & ML) | 2023 – 2027

Vignan Institute of Technology and Science, Hyderabad | **CGPA: 8.89/10**

Intermediate (MPC) | 2020 – 2022

Narayana Junior College, Hyderabad | 97.5%

Secondary School Certificate (SSC) | 2019 – 2020

Sankalp High School, Nalgonda | 100%

AI / ML PROJECTS

Pneumonia Detection using Deep Learning

- Designed a deep learning model with TensorFlow and Keras for medical image classification.
- Applied data augmentation techniques to expand dataset size by 30%, improving model robustness.
- Validated results on a dataset of 5,000+ X-ray images.

Financial Complaint Classification System

- Developed an NLP-based classification system in Python on 10,000+ records, achieving 85% accuracy.
- Applied text preprocessing and TF-IDF for feature extraction.
- Built a user interface for real-time complaint prediction.

Chess Bot using Alpha-Beta Pruning

- Developed an AI chess bot using Minimax with Alpha-Beta Pruning.
- Optimized move selection by reducing unnecessary search space.
- Built an interactive chess interface using Pygame.

Task Management REST API

- Built a Flask REST API supporting 5+ CRUD endpoints for efficient data management.
- Integrated SQL database, authentication, and input validation for secure data handling.
- Tested endpoints using Postman and improved reliability through error handling and debugging.

TECHNICAL SKILLS

Languages: Python, Java, C, SQL

AI/ML: Machine Learning, Deep Learning, NLP, Data Preprocessing, Model Evaluation

Libraries: TensorFlow, Keras

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Backend: REST APIs, Flask, CRUD

Tools: Git, GitHub, VS Code, Postman, Jupyter Notebook

Cloud: AWS (Basics)

CERTIFICATIONS

NPTEL – Programming in Java | NPTEL – Machine Learning and Deep Learning

NPTEL – Cloud Computing | Python for Data Science | Frontend with HTML5 & CSS3

ACHIEVEMENTS

- Developed multiple software and AI-based projects using Java, Python, SQL, and REST APIs.
- Participated in hackathons and coding competitions, demonstrating problem-solving and teamwork skills.
